## LARGE FORCE TO BE EMPLOYED AT TYBO

Seventy-five miners are to be put to work as soon as possible by the Louisiana Consolidated Mining Co. at Tybo. This announcement was made this morning at the Mixpah by General Manager Ott F. Heizer, who arrived from Reno on yesterday's belated train and continued on to camp today by company auto.

This property was acquired from the old Nevada Mines and Smelter Corporation, which produced about \$5,000,000 between the years 1872 and 1879. The company's estate consists of about 125 acres. The shaft is 420 feet deep, but practically all the ore that was extracted came from above the 300 level.

## BREMEN WAS SUNK IN SPITE OF REPORT

(By Associated Press.)  
COPENHAGEN, Via London, Feb. 23.—While Scandinavian newspapers are printing a report that the German merchant submarine Bremen has not been lost but is being used as a supply ship in Germany's blockade, information which has been in the possession of the Associated Press in Berlin for months, is that the submarine actually went down on her first voyage to the United States.

The submarine was not captured by a British patrol boat as was rumored in the United States, but went down in the great storms which were prevailing on the North Atlantic, according to this information.

## JAPAN WANTS TITLE TO PACIFIC ISLANDS

(By Associated Press.)  
LONDON, Feb. 10.—The death knell to Germany's colonial possessions has been sounded, so far as the entente allies can affect that result.

This attitude is not only held by Japan and the British colonies chiefly concerned, but it has the backing of the British and French governments, which have the largest interest in colonial Africa and Asia. It develops the fact also that the late Asquith government was opposed to any extension of British colonial possessions in Africa, whereas the new Lloyd-George government approves this extension as in line with the aspirations of the British colonies in Africa. This in turn has established that there will be a general re-shifting of African colonies, so that the possessions of England, France, Portugal and Belgium will be more homogenous, instead of being scattered and irregular in outline, as at present.

Japan's attitude towards holding the German colony of Kia Chau in China and the Pacific Islands occurred.

## 7,000,000 BUSHEL OF GRAIN HELD THREE MONTHS ON TRACK

(By Associated Press.)  
CHICAGO, Feb. 23.—A second telegram, in which there were traces of apology for the belligerent tone of the first one sent was put on the wires to the interstate commerce commission by President Joseph P. Griffin, of the Chicago board of trade.

Mr. Griffin reiterated that the grain industry in this region is in a paralyzed condition. Forty million bushels of grain are held in local elevators; 7,000,000 bushels additional are in cars some of which should have been shipped three months ago. He told reporters that food product factories in Chicago in many cases are running 24 per cent of capacity because they cannot ship their products out and that one of the biggest corn products factories in the world may have to close down entirely if conditions are not remedied. He said that although the elevators have ceased to operate, they fear because of the shortage of laboring men to lay off any hands, as they might not be able to get them back again. Thus their exports remain at the maximum.

"The holding up of grain and grain products is what, largely, is sending food prices soaring in the east and entailing demonstrations such as that made by women in New York City," Mr. Griffin said. Meanwhile food prices in Chicago showed no sign of a decline.

Wholesalers generally predicted still higher prices before the new crops are harvested.

## GREEK KING CALLS PREMIER TRAITOR

STINGING ARRAIGNMENT OF MAN WHO TRAFFICKED WITH THE ALLIES

(By Associated Press.)  
ATHENS, Feb. 23.—King Constantine told the Associated Press that the entente allies were mistaken when they thought that Venizelos the strongest man in Greece, who could deliver the army when he wanted. "The moment he tried to turn over the army like a lot of mercenaries, Venizelos became the weakest man in Greece, and the most despised. In Greece no man delivers the Greeks. They decide their own destinies."

The king compared Venizelos with Aaron Burr in planning to split his country. "You called Burr a traitor," he added, "that's what the Greeks call Venizelos."

## LOSE SCHOOLMA'AMS THROUGH MATRIMONY

CUPID CUTS A WIDE SWATH IN THE RANKS OF SCHOOL TEACHERS

(By Associated Press.)  
LINCOLN, Neb., Feb. 23.—Leading school executives and teachers of rural schools of central and western states, who began a conference here today were almost unanimous in deploring the fact that trained teachers cannot be kept in rural schools in many instances longer than a year or two. Higher salaries in other occupations was given as one reason. The main cause of the trouble, however, was declared by the speakers to be marriage. The educators said they were "not urging a charge against mating, but what they wished to impress on the rural teachers was to make their professional work their first consideration."

## AMUSEMENTS

## LIBERTY THEATER

Helen Holmes in chapter 6 "The Lass of the Lumberlands." In this chapter Helen Holmes leaps from the cross arm of a telegraph pole onto a runaway train, and while grappling with the engineer the train runs into a closed switch and overturned, pinning Helen Holmes and the engineer underneath, and catches fire. This is one of the most exciting chapters of the entire series and should be seen by all lovers of this wonderful star. We also play a five-reel feature entitled "The Man from Manhattan," a powerful story of love, journalism and politics, featuring Rhea Mitchell and William Stowall. A seven-reel show with excitement in every foot. Do not stay away because you have missed a chapter of this wonderful serial, as the story is told to you at the beginning of the picture.

Tomorrow: H. B. Warner, in "The Vagabond Prince," a story full of life and staged in and around San Francisco, Cal. Also a two-reel Keystone comedy entitled "The Great Vacuum Robbery," featuring Chas. Murray.

## BUTLER THEATER

A big eight-reel show will be the program at the Butler this evening, and it will be a good show. The power of a woman's jealousy is the underlying theme which gives vivid and rapid action to the new Fox photoplay, "The Love Thief." In which Gretchen Hartman and Alan Hale are featured. Miss Hatman plays the part of the Mexican girl, Juanita, who, through a ruse, gets Arthur Boyce's fiancée, Clara Nelson (Frances Burnham), to break off her engagement. When she sees that she cannot make Boyce (Alan Hale) love her, her affection turns into hatred. In a raid on an American border town, Clara is taken prisoner by Juanita and Costa, her ally. Boyce goes to the rescue, but is captured. The two Americans, however, succeed in making their escape. Juanita starts in pursuit, but is shot down by American soldiers in a battle with the Mexican squad she is leading. A two-reel knockout comedy, "He Becomes a Cop" will be shown also, the second edition of the Tonopah movies. Tomorrow another big bill—Emily Stevens, recently in "The Wheel of the Law," will appear in "The Wager." If you have some favorite selection you would like played, let us know.

## ZINC MINE CLOSES DOWN AT PIOCHE

The Amalgamated Pioche M. & S. corporation has discontinued operations. The reason is not a lack of ore nor a lack of value in the ore, but because the smelters of zinc ore are in such an independent position that they can and do dictate whatever terms they wish in the purchase of the mine operators' product, says President Van Wagenen.
